Thai Herbal Compress Massage

This ancient healing practice of Thai herbal compress therapy has been practiced for thousands of years. Designed to relieve pain and inflammation, a mixture of therapeutic herbs and spices (including ginger, turmeric and lemongrass) are wrapped in muslin compress and steamed, then applied to your body using gentle pressing and circular rolling motions. As your pores open, the healing properties from the herbs and spices seep into the skin leaving you rejuvenated and renewed.

Aromatherapy Massage

Surrender to the gentle hands of our therapists and submit to a state of peace and relaxation while you rejuvenate with orange, relax with lavender, revitalize with lemongrass, refresh with peppermint, soothe with jasmine, or balance with ylang-ylang.

This aromatic massage allows the healing properties within the oils to penetrate your skin through the use of a combination of strokes and acupressure techniques.

Hot Stone Massage

Beyond luxurious, this massage uses heated volcanic stone to release your body's stored tension, as well as deepen the penetration of the warm oils lathered over your body. Swedish Massage

In Swedish Massage, our therapists use five styles of long flowing strokes including gliding or sliding, kneading, rhythmic tapping, friction and vibration.
